1975 Suzuki RM80

I became interested in Motorcycles early in life around 6 years old through my Uncle Jocco and watching Motorcycle races on TV. We were fortunate to have a path close to our house for dirt bike riding.

My first Motorcycle was a 1975 Suzuki RM80 that I had bought used using Paper route money I had earned. I was 10 years old then and bought it from Randy Groulx. I had to push it home about 3Km with a flat Tire and broken throttle cable.

The reason I joined the club is the love of motorcycles, the common interest with my club brothers and I enjoy helping out with ground maintenance.

I'm 50 now and have enjoyed racing starting at a young age. I have been a mechanic for 18 years and riding since I was 10. I raced Enduro Class for a couple of years, raced RC Cars and tried Flat Track racing twice. I borrowed Scott's bike, a 450 once to race and one time even borrowed Tim's Speedway Bike for a race – Now that was a Rush.

2010 Suzuki RM2 450

On the last Scooter Weekend Camp out, I had the strength of ten men and easily lifted tree trunks to throw them in the fire.

I enjoy helping out with keeping the club grounds clean and cutting the grass. I helped install the steel roof on the club house and I used to help set up the Big Enduro Cross Event.

I am proud to be a recipient of the Rudy Gondocs Award for three years.
